

NORTH WELD COUNTY WATER DISTRICT

May 2026 UPDATE

VOLUNTARY WATERING RESTRICTIONS

It's officially spring and our grasses, trees and flowers are beginning to emerge from their winter slumber. Even this early in the season, we're committed to smart watering practices and encourage customers to follow these basic steps to prevent over-watering of the new, spring growth

- Water no more than three days a week.
- Water before 10:00 a.m. and after 6:00 p.m. when temperatures are cooler.
- Avoid watering on windy days.
- Avoid applying water or allowing water to pool on impervious surfaces, such as patios, driveways, streets, or sidewalks.
- Water deeply and less frequently so roots grow deep and strong.
- Make amendments to the soil to allow better moisture retention and provide plants with the fertilizer they need.
- Use a positive shut-off nozzle when irrigating landscapes or washing vehicles.
- Re-use the water from washing vegetables or fruits for houseplants or your garden.

2026 WATER RATES & PAYMENT OPTIONS

Updated potable water rates are currently in effect and are based on total monthly usage.

0–6 kgal: **\$31.14** Over 6 kgal: **\$5.19 per kgal**

North Weld County Water District accepts payments by cash, check, debit card, credit card, or e-check.

Payments may be made online, over the phone, by mail, or in person at the District Office. No additional fees are charged for any payment method.

The WaterSmart customer portal makes it easy to monitor usage, review billing information, and manage your account online at any time.

GET STARTED IN 3 EASY STEPS:

- 2 Register: Use your account number listed on your water bill and your zip code.
- 3 Personalize: Complete a simple profile to get the most out of your account

ANNUAL WATER QUALITY REPORT

The Annual Report provides detailed information about the source of the District's water and the results of annual water quality testing. Our goal is to provide the District with a safe and dependable supply of drinking water and meet or exceed federal and state water quality laws. In 2026, we are pleased to report that there were no violations or deficiencies in water quality or service delivery to our customers.
